Small knots, difference in colour, significant or insignificant growth rings as well as quartersawn plates with markings, are a sign of authenticity and are not eligible for complaint.

LAMINATE

COLOUR	CODE	RAL / NCS	EXAMPLE
Soft white	F7949	RAL 9016	
Graphite	F7837	RAL 8019	
Folkstone light grey	F7927	NCS 2500-N	

TREATMENT OF EDGES: OPTIONAL BLACK STAIN OR BLACK OIL - SEE PRICES UNDER **ADDITION** FOR EACH MODEL.

The protective foil is to be removed after assembly. Glue residue can be removed with laminate cleaner, or a melamine sponge.

Due to a transparent layer of melamine covering the coloured layer of laminate, surface scratches are more visible on darker colours. Finger grease is also more visible on the darker laminates, whereas printing ink is more visible on brighter laminates.

Our laminate complies with the European standard EN438, with regard to small irregularities in the surface, such as black dots.

LINOLEUM

COLOUR	CODE	RAL / NCS	EXAMPLE
Black	4023	NCS 9000-N	
Conifer dark green	4174	NCS 8010-B90G	
Pebble	4175	NCS 3502-Y	

TREATMENT OF EDGES: OPTIONAL BLACK STAIN - SEE PRICES UNDER **ADDITION** FOR EACH MODEL.

Linoleum may have excess colour on the surface, that only disappears when the surface comes into contact with oxygen and sunlight. Minor colour differences based on this will offset over time by uniform environmental impact, and is not eligible for complaint.

Brightly coloured linoleum is delicate and thus more difficult to clean and maintain.
